## MZ-800
Expansion Board
MODEL MZ-1E20
INSTRUCTION MANUAL

The MZ-1E20 is an expansion board which is provided for connecting the MZ-1U06 expansion unit to the MZ-800.
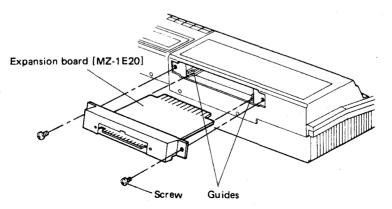

Installation procedure
To install the expansion board to the MZ-800, follow the following procedures.

Note: Before installing the expansion board to the computer, be sure to turn off the MZ-800 and its peripheral units and unplug the power cord.

1. Remove the expansion slot cover screws on the rear panel of the MZ-800 and take off the cover. (You have to reinstall the cover when the expansion board is removed, so please keep it.)

Expansion slot cover

2. Insert the expansion board along the guides on both sides and firmly insert it into the connecter mounted inside the slot. Affix it with the two screws to the rear panel of the MZ-800.
